ABOUT ME

Full-Stack Web Developer with experience in web development using **React and Node.js**. I have worked on corporate applications and **Full-Stack projects**, developing **REST APIs**, backend integrations, and managing **SQL/NoSQL databases**. Familiar with **Agile/Scrum environments, GitHub, Docker**, and web application deployment. I am looking to continue growing in software development and technology environments focused on **product development and digital transformation.**

PROFESSIONAL EXPERIENCE

Full Stack Developer

Cubicup Design Home - March 2025 - June 2025

- Developed new **Full-Stack** features for a corporate web platform using **Angular, Node.js, and MongoDB**.
- Implemented **REST APIs** for data management and integration between the **frontend and backend**, improving system organization and scalability.
- Optimized **MongoDB** queries and data structures to reduce loading times and improve the user experience.
- Worked in an **Agile/Scrum** environment using **Jira, GitHub, and Docker** for deployments and version control.
- Collaborated with other developers on **maintenance, testing**, and continuous improvement of the application.

FEATURED PROJECTS

QIVET - Full Stack Web Application

React | Node.js | PostgresSQL

- Developed a **Full-Stack** application for veterinary clinic management using **React, Node.js, and PostgreSQL**.
- Implemented a **CRUD system** for managing clients, appointments, and veterinary consultations.
- Designed a separate **frontend/backend architecture** to improve maintainability and scalability.
- * Integrated **PostgreSQL** for structured data storage and efficient queries of clinical information.
- * Optimized **navigation and user experience** to streamline daily data management.

EDUCATION

FP Desarrollo de Aplicaciones Web — IES Politécnico Hermenegildo Lanz (Granada) 2023 - 2025

Bachiller en Ciencias Tecnológicas — IES Virgen de las Nieves (Granada) 2021 - 2023

COURSES COMPLETED

Curso Programación con IA y Prompting — Academia Teba (210hs) — MF0964_3 DESARROLLO DE ELEMENTOS SOFTWARE PARA LA GESTIÓN DE SISTEMAS.

Curso de Analista de datos con IA — BEJOBS (160hs) — DIGEMP: Young Women's Digital Empowerment.

SKILLS

Languages and frameworks: JavaScript, React, Node.js, Angular, HTML, CSS

Databases: PostgreSQL, MongoDB, SQL, NoSQL

Tools and platforms: Git, GitHub, Docker, Jira

Methodologies: REST API Development, Agile, Scrum

OTROS DATOS

English: B1/B2 (professional level of technical reading) **Availability:** Immediate and geographical
